## ABOUT THE RADIO DIVISION

Limelight has created a Radio Division that will present radio dramas based on classic films, literature, and even some original works and adaptations. The premise is that you are watching a group of actors (possibly from a different time period) performing the radio drama to be broadcast on air. While we do not record or broadcast our productions, we get to step back in time, and enjoy the charm of a classic radio broadcast. The actors do not need to memorize lines or blocking (movement), so they can focus all of their attention on creating a dynamic and interesting character with his or her voice.

Another exciting element of these productions is the team of foley artists set up to produce live sound effects. These effects include big and attention grabbing sounds that are essential to the plot (like a gunshot or thunderous storm), as well as the ambient background sounds that add depth and character to a scene (like tinkling glasses, shuffling papers, or ambient conversation). These sounds are created in many clever ways using all kinds of objects.
