A NOTE FROM THE DIRECTORS

This year, we have decided to break from tradition...but not entirely. For the first time in a long time, we are not spending our holiday season in Bedford Falls with George Bailey as he discovers that it truly is a wonderful life. Instead, we put the Limelight twist on Charles Dickens' *A Christmas Carol*. This adaptation sets Ebenezer Scrooge in New York in 1929, just after the crash. Times are tough, and there isn't much to celebrate until a handful of phantasmagoric visitors help give the season meaning.

Our holiday radio shows always help put things into perspective for me and leave me overwhelmingly grateful for the opportunities and experiences that Limelight provides for this community. We are able to learn together, grow together, and we always find something to celebrate.

We hope you take a page out of old Scroogey's book this year and live life with compassion in your heart, and use your blessings to help others, not just on Christmas, but every day of the year.

Best wishes this holiday season!
