**Director's Note**

2020 has been quite a year. This pandemic has changed the shape of many parts of our lives. Limelight is spending its 20th year reinventing how we approach live theater and collaborative performances. With health and safety first and foremost, we set out to create something that would allow us to continue to come together to share stories. That meant having a very flexible plan. We created an outline and Ginger prepared 2-8 scenes that would accommodate 4-8 actors each, that could be performed in person (with appropriate social distancing) or online (if we had needed to take that route). We wouldn't know what the show would look like until we knew who had auditioned and what phase of reopening the state we would be in. We are immensely impressed with this cast for being flexible with this unique collection of stories and different aesthetic choices we have made to align with the new protocols and rules to help keep us safe.

We may have had to change how we do some things, but the creative spirit is strong within this group of goofy, thoughtful, hardworking, and fantastically fun performers. We are so lucky to have them on this journey with us. Thank you for joining us this evening and enjoy the show!
